

ComStar has the **LOWEST GWP**, non-flammable retrofit replacements for R-410A, R22, R404A, and R507 in existing systems

ComStar's RS-44B (R453A) is the closest match to R22 at high, medium and low evap temp. of -20°F.

ComStar's RS-53 (R470A) is the world's only retrofit replacement for existing R410A systems. At 909, RS-53's GWP is effectively 56% lower than R410A.

ComStar's RS-51 (R470B) has a GWP of 717. This is less than 20% of the GWPs of R404A and R507.

EPA, SNAP approved, and ASHRAE A-1 certified.
